A room in the Hamlin Memorial Hospital was ordered set aside for the use of Negro patients by the board of directors of the institution in a meeting Monday night, when plans were made for the drive for funds to pay outstanding debts of the hospital.

The movement came after consultation with a donor of a room, who readily agreed that such an action should be taken. Heretofore no provision has been made to take care of colored patients, and they have been forced to seek medical care elsewhere.

The board met with representatives of civic organizations and churches Monday evening in the Hamlin Fire Hall. More than 65 people from Hamlin and surrounding towns attended the meeting and joined in the making of plans for the fund-raising campaign.

The campaign will open Monday morning and will continue throughout the week, when it is hoped to have at least \$15,000 raised for retiring outstanding indebtedness of the hospital.

Mayor Holly Toler issued a proclamation Tuesday morning in which he designated the week as "Hospital Week" in Hamlin and called upon citizens to participate in the drive for money.

Talks were made at the meeting by Tate May and W. C. Russell of the Farmers & Merchants National Bank, and by others who

were interested in seeing the institution prosper.

Committees were named to have charge of solicitation in the drive. The committees announced are as follows.

Downtown Hamlin: Holly Toler, chairman, Joe Culbertson, Art Carmichael, Everett T. Wiley, C. B. Phelps, R. H. McCurdy and Edgar Duncan, members; Residential Hamlin: Com. Clyde Huff of the VFW, chairman; Travis Smith, member; Lions Club: Clyde Angel, chairman, Travis Hash, and Roy Hartgraves, members; Rotary Club: Bill Terry, chairman, members to be announced; Fire Department: Tom Vaughn, chairman; American Legion: Joe Culbertson, chairman.

Wise Chapel community: Dave Herbst, Johnnie Agnew, Joe Murff and Joe Ford, Flat Top community: J. M. Stubbs, Johnnie Hines, L. C. Denton and R. L. Goodgame. Dovie-Tuxedo community: Newell Baige, G. R. Riddle and J. C. Harwell.

Neinda-Boyd Chapel community: H. W. Madden, Vernon Harris, J. E. Johnson, L. R. Paulkenberry and Travis Hubbard. Committees for other communities will be named later.

The Hospital Auxiliary, members of the Women's Literary Club and the Prement's Auxiliary, will conduct a Christmas tree campaign in which they will seek gifts of food or furnishings for the hospital.

PROCLAMATION

Whereas, the Hamlin Memorial Hospital is in need of financial support from the citizens of the community, and,

Whereas, this institution is a first class hospital capable of rendering the best care and having two of the best doctors on its staff, and,

Whereas, it behooves each and every individual to sustain this institution by giving a donation to its cause during the fund raising drive from November 29 through December 4,

Therefore, I, Holly Toler, Mayor of the City of Hamlin, do hereby proclaim the week of November 29 to December 4 as Hospital Week and urge every individual to contribute to this worthy cause.

Given under my hand and seal this the 23rd day of November, 1948

HOLLY TOLER,
Mayor of the City of Hamlin.

Flores No. 1 Hits Pay at 4600 Feet

Well to Be Gauged Thursday; Other Tests in Hamlin Field Drilling Ahead

Pay sand was hit in the General Crude No. 1 Flores in the Hamlin field early Wednesday, and operators of the test said the strike looks like good production.

The well was being cemented late Wednesday and preparations were being made for a gauge of production sometime during Thursday or early Friday.

In the meantime operators had received an official gauge on the J. B. Terrell well which came in on its own power last week. The well produced 264 barrels of high grade crude on a one-fourth inch choke.

The allowable production set by the Texas Railroad Commission is based on the official gauge and not on the potential production.

The W. H. Bryant Eleanor Towne No. 2 lost circulation late Tuesday night and was trying to regain it Wednesday. The well was bottomed at 3,500 feet Wednesday.

The Ellis Hall, Sterling test, was drilling ahead at 4,200 feet Wednesday morning.

Location for a new wildcat exploration test one mile northeast of

Sylvester was filed this week by J. D. Hancock and P. G. Lake Inc., of Dallas.

The project will try for production from the Noodle Creek and Swastika sections. It will be known as the W. C. Young No. 1, a 3,700 foot rotary test, 1,701 feet from the north and 60 feet from the most westerly line of J. S. Davis survey.

In the Round Top area of the Hamlin field General Crude has filed locations for two field outposts one to the east and the other to the southeast of present production.

ATTEND FUNERAL.

Mr. and Mrs. Bob Allen have gone to Chicago to attend the funeral of Allen's mother. While in Chicago they will be guests of Mrs. Allen's nephew and niece, Mr. and Mrs. Weldon Wainscott in Joliet, Illinois.

FEED EUROPEAN FAMILY.

Members of the Hamlin Church of Christ are providing money to feed a family in Europe for the month of November. J. Cleo Scott, minister, said this week.

This Is Commendable

The Hamlin Herald extends congratulations to members of the Hamlin Memorial Hospital board of directors for their action Monday night in setting aside a room at the institution for Negro patients. Such a move is fully in keeping with the principles of Christianity.

The Hamlin Memorial Hospital, erected as a monument to the young men who gave their lives for their country and their flag, was not fulfilling its purpose as long as treatment was refused to people of any creed, color or race. Negro boys died for the flag, too.

But the present board, conscious of the fact that mercy cannot be segregated, nor can human decency bow to discrimination, opened the hospital to treatment for the members of the colored race.

The Herald believes the board's action will meet with instant approval of the people in this community, and it feels certain the action will be in accord with the teachings of Jesus.

From this date forward the Hamlin Memorial Hospital will be more fully what it was intended to be—a haven of healing for the ill and afflicted, and a shining memorial to those who gave their lives that democracy might not perish from the face of the earth. A hospital, like God, can be no respecter of persons.

Boring From Within

Charges released this week, revealing that Communists have infiltrated into some of the church organizations in America, and that they are attempting by insidious methods to overthrow the one great barrier to their continued advance, should cause those of us who love the American way of life to engage in sober consideration of the danger that confronts us.

Communism is opposed to Christianity. In fact it is opposed to any concept of God or Godliness. The tenets of that political creed are atheistic and would destroy all doctrines not enunciated by Marx and Lenin and Stalin.

The revelation that came this week should serve to strengthen the determination of Americans that the forward march of this vicious system must be stopped. It should still the tongues of those who have so blandly voiced the opinion that there is no danger to America from communism. It should answer the inane argument that "it can't happen here." It should alert all of us to the fact that we must fight with every available means the steady encroachment upon our liberties achieved by communism.

A long time ago it was said that "Eternal vigilance is the price of liberty," and most of us, forgetting the truth of that statement, have relaxed our vigilance and permitted the upsurge of this cancerous growth within our land.

Perhaps the facts proclaimed in the recent presidential campaign were not "a red herring" after all.

The Decision Is Yours

Weeks of hard effort, and many hours spent in meetings by the board of directors of the Hamlin Memorial Hospital have resulted in the drive for funds which will be inaugurated next Monday.

The directors have organized the campaign, committee members have agreed to work, and numerous individuals and organizations have prepared to launch into a week's efforts to pay off indebtedness of the hospital.

But regardless of the organization and the ballyhoo and the underlying purpose behind all of this activity, the final result will be up to you!

No one can shoulder the load in this drive that properly belongs to you. No one else can take your part in providing the money needed for the immediate debts of the hospital. Of course, it is possible for the drive to be a success without your contribution—but you will be cheating yourself if you fail to participate to the very limit of your ability—whether large or small.

No doubt you have planned to give to the hospital fund. It may be that you have decided to donate a generous sum, but now you will have an opportunity to test the greatness of your own heart by doing a little more than you had intended to do.

Don't be niggardly next week when you are asked to give. Don't pass the campaign by with a shrug and an excuse. Give whatever you feel that you can give, and then give some more. You will find deep satisfaction in any sacrifice you might make. But the decision is yours.

Increasing interest in Hamlin's weekly trade day is indicated by the constantly growing crowds attracted to the event each week. Beginning on a small scale several months ago, the weekly event now brings people from many miles to witness the main attraction of the day.

The essential factors in character building are religion, morality, and knowledge.—J. L. Pickard

DRILL FOR SCENIC HIGHWAY

Drilling for oil and other minerals is an old story but it remains for New Hampshire to drill for dollars. Not that dollars will be found but the state hopes to attract tourists with a new scenic highway and from the visitors will come the money.

Cutting through the rugged hillsides calls for leveling and grading operations through solid rock and drilling is necessary. R. G. Watkins & Sons, Inc., contractors on the job, called engineers of the Timken Roller Bearing Company and found the right answer to the rock drilling problem. Using 5 pneumatic hammers and 3 wagon-drills equipped with Timken Rock Bits enabled the job to go ahead smoothly.

When the new highway is finished and the motoring tourists come rolling along the drilling for dollars will pay off.

LETTERS TO THE EDITOR

(The Hamlin Herald is glad to publish letters from readers on any subject, and will print them without deletion provided they do not violate laws of libel and rules of good taste. The opinions expressed in letters published here are not necessarily those of the paper.)

To the Editor:

The strangest thing to me is why some smart men can't understand how and why President Truman was elected if they would only think he was the only candidate that was running that had a platform that was worthy anything to and for the people of course Mr. Dewey, Mr. Stassen and several others was always hollering me too but we all know what the 80th congress did about the things that was most important to all of us.

So my friends if you are keeping up with the trend of things you will find out that quite a number of this bunch that had no platform but tried so hard to attract the people and tried to tell us how incompetent President Truman was how he bungled up things but they can surely see now that it went in at one ear and out the other but if you are keeping up with this bunch you will see that they have already started a wrong song to tell President Truman how things will be run and who will run them. In their minds they have about got the ones picked for the places they want them for. So my friends you will find out when this bunch tried so hard to soft soap us with this me too to most ever thing the Democrats have given us the past 10 years. They will change the name of that word to we didn't aim to. The way I see things if I was this bunch I would surely wait until President Truman announced who he thought should be the man he wanted to help run this government. He won his race mostly by himself and I believe if the Congress and Senate and all of us will cooperate he will straighten everything out let us all help him. Resp.

Your friend,
Albert Moore.

HAMLIN THE HERALD

Texas Writer Is Author of Early Day True Stories

The old days when wet mud packs were applied to spider bites and children stayed close to the house to avoid capture by the Indians are recounted by Helen Grote of Fredericksburg in the current issue of the 'Junior Historian.'

Writing in the magazine published by the Texas State Historical Association at the University of Texas, Miss Grote sets down experiences related by her 91-year-old grandmother, Mrs. Anna Matern Grote.

Mrs. Grote, was born in 1856 in Burnet County, her parents having settled near New Braunfels after coming to America from Germany in 1845—about a year before the settlers of Fredericksburg arrived.

She told her granddaughter that she and her brothers and sisters played with sticks and rocks and home-made toys since there were none to be bought. She remembered that her father was once invited to the home of some Indians for dinner and during the course of the meal saw what he believed to be human bones in the meat.

Miss Grote was one of 17 young contributors to the current issue of 'Junior Historian,' which included articles by students from Galveston, San Antonio, Fort Worth, San Angelo, Iraan, Dallas, McCombs, Wichita Falls, Texas City, Cuero and Texarkana.

Mrs. L. G. Server and Mrs. J. G. Smith visited friends in Rule and Haskell last Wednesday.

Mr. and Mrs. Vesta L. Townley of Wichita Falls were guests Sunday of Townley's parents, Mr. and Mrs. Everett Townley in Hamlin.

HIGHWAY SIGNS ADVISE SAFE SPEEDS ON CURVES, TO BE SEEN IN FUTURE

A new type of highway sign, an

advisory speed sign designed to aid in traffic safety, will soon make its appearance on Texas main highways. Part of the Texas Highway Department's program of speed zoning, the new sign will advise motorists of the maximum safe and comfortable speed on curves and turns which are not considered safe to travel at speeds above 50 mph. It will be a sign with a yellow background and black numerals and let-

ters.

The speed indicated on the sign is not the maximum at which a turn may be taken, but is the maximum at which the average car can make the turn without an uncomfortable side-throw of its passengers and still stay on its side of the road.

The speed indicated is calculated by the use of a Ball-Bank indicator, an aircraft device which measures the degree of force in any turn. Highway Department test drivers

will try each turn at increasing speeds until the maximum is determined.

The Governor's Highway Safety Conference held this spring recommended that the Texas Department institute a program of speed zoning, an marking curves with safe speeds, and the new signs are a result of that recommendation.

Mr. and Mrs. Leslie Winkle of Rule were guests of Mr. and Mrs. Fate Beavers and other friends last Sunday.

Deadline Dates for Veterans Are Pointed Out by VA; Benefits Due

There are a number of important deadline dates on GI Bill benefits which World War II veterans should keep in mind, Veterans Administration officials point out.

GI education and training benefits have two deadlines, one to enter training and another to complete training. Education or training must be started within four years after discharge or by July 25, 1951, whichever is later.

As a general rule, education or training must be completed not later than July 25, 1956. The exceptions from the general rule are veterans who enlisted or reenlisted before October 6, 1946. These men figure deadlines on GI Bill benefits

from the date of their discharges and may start and complete their training later than other veterans.

Veterans may apply for guaranteed or insured GI loans for the use of buying or building homes, farms or business up until July 25, 1957.

Veterans who were discharged on or before July 25, 1947, can apply for readjustment allowances until two years after their date of discharge. However, no readjustment allowances are payable after July 25, 1952.

There is no deadline on the time a veteran has to apply for medical care or hospitalization. He may do this anytime during his life. The same holds true for filing a claim for disability compensation or pension.

Cotton Trading In T-O Region Shows Weakness

Trading in spot cotton sagged the past week in Oklahoma and Texas markets, according to the Production and Marketing Administration of the United States Department of Agriculture.

Reported sales at Dallas, Houston and Galveston dropped to 75,245 bales compared to 89,045 bales the previous week. Sales at the other seven spot markets of the nation likewise declined.

Domestic mill inquiries were less numerous last week in the Southwest. However, export interests continued fairly good, but prices offered were unattractive to local merchants and shippers. Farmers are offering current ginnings at prices better than government loan values.

Picking was interrupted in most sections by light rains and cold, damp weather. Farmers in most areas reported the supply of pickers is adequate.

Cotton ginned in Oklahoma through October 31 ran much higher in grade and longer in staple length than during the same period last year, but the cotton ginned in Texas through October 31 was lower in grade and slightly longer in staple than the same time during the last year.

Joe and Jeanne Trimble of San Angelo spent the week-end with Miss Viola Avants in Hamlin.

Carloadings for Week Reported by Roads

For the third consecutive week carloadings on the Katy railroad gained in volume over the corresponding week of 1947, and loadings on the Santa Fe system lost, according to a report issued this week by the two roads.

Can Black-Draught Help An Upset Stomach?

Yes, Black-Draught may help an upset stomach if the only reason you have an upset stomach is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental haziness, bad breath—and if these symptoms are due only to constipation—then see what Black-Draught may do for you. Lift Up Your Voices

Americans have much for which to be thankful this year... plenty of food, shelter from the weather, comfortable homes and most of us have health.

It is fitting that we pause from our vocations and "lift up our voices to God, who has so bountifully blessed us."

And, in keeping with the teaching of the Master, let us share with those who are not so fortunate, that others, too, may have reason for rejoicing.

We have much for which to be thankful this year... many blessings in both material and spiritual things... and we are taking this method of expressing our sincere appreciation for one of our greatest—the friendship and patronage you have extended to us during the past year.

Your friendly encouragement has helped to make the year more pleasant and to make our lives happier, and we want all of our friends to know that our gratitude is from deep within the heart.

For the intangible blessings, which all of us enjoy so bounteously, we offer humble thanks to our Heavenly Father, whose merciful goodness has provided us in America with the blessings of peace, liberty and prosperity.

Dangers From Gas Asphyxiation is Cited by State Health Head; Urges Caution

With the advent of cold weather in this State, several deaths are usually reported, resulting from asphyxiation by gas fumes from improperly ventilated homes or sleeping quarters.

Dr. George W. Cox, State Health Officer, has issued a warning in this respect, emphasizing that it is never safe to sleep in a tightly closed room with a gas fire burning. Even if there are no gas leaks, the air soon becomes vitiated and unfit to breathe.

When occupying a room in which a fire is burning, be sure always to leave at least one window or door open, to admit fresh air," Dr. Cox said. "If the weather is too cold to permit leaving an open window in a room occupied, then play safe by opening a door into an adjoining room, where a window can be opened."

Dr. Cox said he was prompted to issue this warning early in the season because of the fact that thousands of new residents in the state come from districts where they have been used to burning coal, oil or oil, and they do not know the dangers of gas fumes in improperly ventilated homes.

Occupying a room heated by an open flame, and at the same time keeping the room tightly closed may prove disastrous the very first time it is tried," Dr. Cox said. "It is better not to risk it even once. Always be sure that your room has plenty of fresh air, but

make doubly sure when you have a gas fire burning."

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of waste and poisons. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.
Frequent, scanty or burning passages are sometimes further evidence of kidney trouble. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisons from the blood. Use Doan's Pills. They have had more than thirty years of public approval and are endorsed the country over. Look for Doan's Pills at all drug stores.

HELP! HELP! C O F C SENDS OUT SOS MESSAGE

A call for help went out from the Chamber of Commerce Tuesday morning to property owners of Hamlin, and the need is urgent, Mrs. E. M. Wilson, secretary, said.

Housing—apartments, bed-rooms, or furnished houses—is badly needed for oil field workers and others who want to make Hamlin their home, Mrs. Wilson said.

Some people who work here or near here are commuting from Abilene, Mrs. Wilson reported, and she asked that people who have available living quarters report to her. The telephone number is 63.

Former Marshal Of Hamlin Died In Hobbs, N. M.

Funeral services were conducted Tuesday at 2:30 p. m. here for William Hardy (Bill) Johnson, former city marshal of Hamlin, who died in his home in Hobbs, New Mexico, Monday morning.

Johnson was born December 29, 1886 in Georgetown, where he grew to young manhood.

Married in 1907 to Miss Emma Mae Hudson, Mr. and Mrs. Johnson were the parents of one child who died in infancy. He was converted and joined the Methodist Church in 1914 and later move his membership to the Hamlin church.

Johnson served as city marshal of Hamlin for several years and was connected with law enforcement for 24 years until a brief time before he and Mrs. Johnson left Hamlin.

He was a charter member of the Hamlin Volunteer Fire Department. After going to Hobbs Johnson conducted a rooming house. He had been in failing health for the past two years and seriously ill for a brief time before his death.

Dr. W. C. House, pastor of the Hamlin Methodist Church, was in charge of the funeral rites, which were conducted in the Barrow Funeral Chapel. Dr. House was assisted by Judge Brooks of Abilene, a long-time family friend.

Pall bearers were: W. T. McGuire, Loy Fry, R. H. McCurdy, Clyde Wilson, J. H. Foster and Ray H. Ling. Burial was in the East Cemetery.

Johnson is survived by his widow, of Hobbs, and a sister, Mrs. Frank Fuller of Austin.

New Pulpit Installed In Church of Christ

Frankie Sue Madden Is Name Carnival Queen

Miss Frankie Sue Madden, representative of the junior class of Hamlin High School, was named queen of the Harvest Festival held at the high school last Saturday night.

Lou Sara Dean, representing the fifth grade, was chosen princess of the Elementary School.

A large crowd attended the harvest program and participated in the entertainments offered by junior class members. Money raised at the event will be used by the class for their annual banquet.

MRS. WAINSCOTT RECOVERS.

Mrs. Wayne Waincott, who underwent an operation for appendicitis in the Stamford Sanitarium last week, will be returned to the home of her parents, Mr. and Mrs. L. E. Hines of Celotex within a few days. Her condition is reported to be greatly improved.

A room in the Hamlin Memorial Hospital was ordered set aside for the use of Negro patients by the board of directors of the institution in a meeting Monday night, when plans were made for the drive for funds to pay outstanding debts of the hospital.

The movement came after consultation with a donor of a room, who readily agreed that such an action should be taken. Heretofore no provision has been made to take care of colored patients, and they have been forced to seek medical care elsewhere.

The board met with representatives of civic organizations and churches Monday evening in the Hamlin Fire Hall. More than 65 people from Hamlin and surrounding towns attended the meeting and joined in the making of plans for the fund-raising campaign.

The campaign will open Monday morning and will continue throughout the week, when it is hoped to have at least \$15,000 raised for retreating outstanding indebtedness of the hospital.

Mayor Holly Toler issued a proclamation Tuesday morning in which he designated the week as "Hospital Week" in Hamlin and called upon citizens to participate in the drive for money.

Talks were made at the meeting by Tate May and W. C. Russell of the Farmers & Merchants National Bank, and by others who

were interested in seeing the institution prosper.

Whereas, the Hamlin Memorial Hospital is in need of financial support from the citizens of the community, and,

Whereas, this institution is a first class hospital capable of rendering the best care and having two of the best doctors on its staff, and,

Whereas, it behooves each and every individual to sustain this institution by giving a donation to its cause during the fund raising drive from November 29 through December 4,

Therefore, I, Holly Toler, Mayor of the City of Hamlin, do hereby proclaim the week of November 29 to December 4 as Hospital Week and urge every individual to contribute to this worthy cause.

Given under my hand and seal this the 23rd day of November, 1948

Flores No. 1 Hits Pay at 4600 Feet

Well to Be Gauged Thursday; Other Tests in Hamlin Field Drilling Ahead

Pay sand was hit in the General Crude No. 1 Flores in the Hamlin field early Wednesday, and operators of the test said the strike looks like good production.

The well was being cemented late Wednesday and preparations were being made for a gauge of production sometime during Thursday or early Friday.

In the meantime operators had received an official gauge on the J. B. Terrell well which came in on its own power last week. The well produced 264 barrels of high grade crude on a one-fourth inch choke. The allowable production set by the Texas Railroad Commission is based on the official gauge and not on the potential production.

The W. H. Bryant Eleanor Towne No. 2 lost circulation late Tuesday night and was trying to regain it Wednesday. The well was bottomed at 3,500 feet Wednesday.

The Ellis Hall, Sterling test, was drilling ahead at 4,200 feet Wednesday morning.

Location for a new wildcat exploration test one mile northeast of

Sylvester was filed this week by J. D. Hancock and P. G. Lake Inc., of Dallas.

The project will try for production from the Noodle Creek and Swastika sections. It will be known as the W. C. Young No. 1, a 3,700 foot rotary test, 1,701 feet from the north and 60 feet from the most westerly line of J. S. Davis survey.

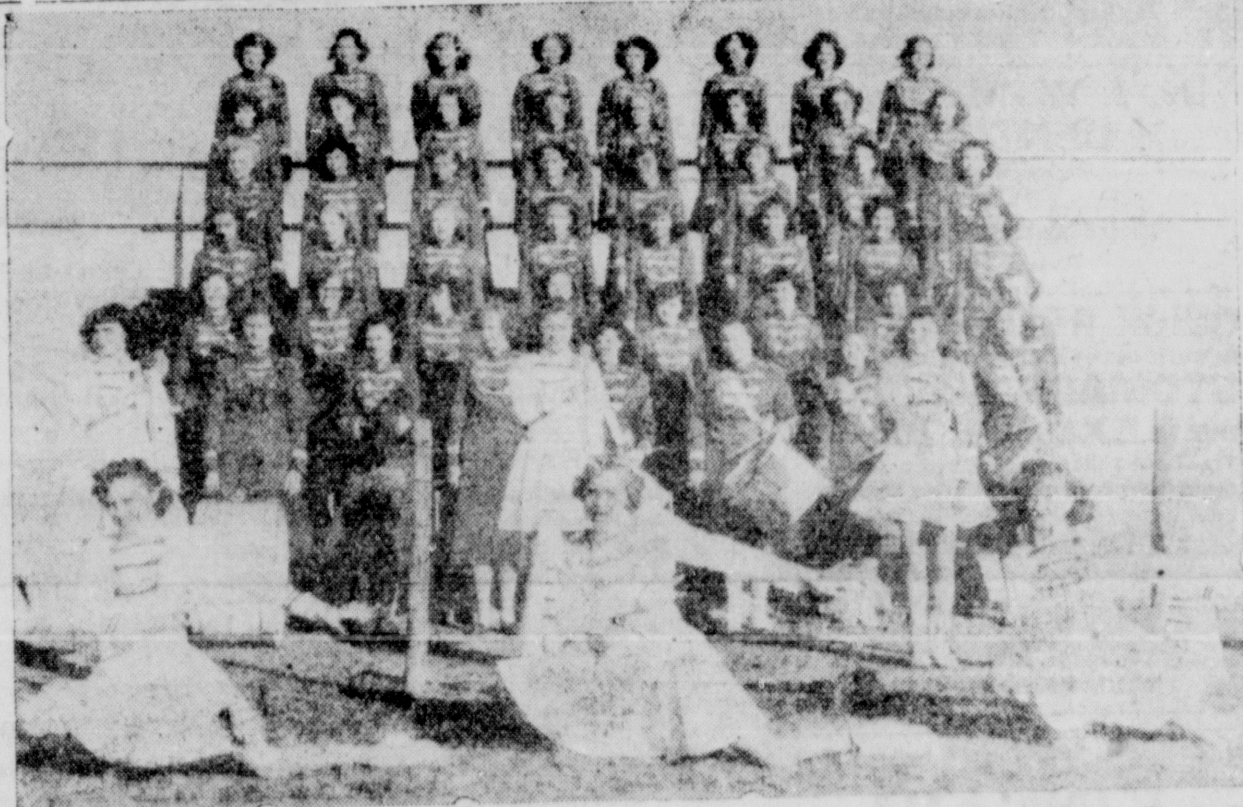

In the Round Top area of the Hamlin field General Crude has filed locations for two field outposts one to the east and the other to the southeast of present production.

ATTEND FUNERAL.

Mr. and Mrs. Bob Allen have gone to Chicago to attend the funeral of Allen's mother. While in Chicago they will be guests of Mrs. Allen's nephew and niece, Mr. and Mrs. Weldon Waincott in Joliet, Illinois.

FEED EUROPEAN FAMILY.

Members of the Hamlin Church of Christ are providing money to feed a family in Europe for the month of November, J. Cleo Scott, minister, said this week.

Hamlin Pep Squad members are pictured above in their military uniforms of green and white in which they presented drills a half time between the games played by Hamlin's High School team. Leaders wear white zabardine suits trimmed in green braid, and other members wear green gabardine with white braid on jackets and cuffs. Leaders are: Vannie Bea Huling, drum major; Peggy Terrell, Frankie Sue Madden and Margie Hallmark, majorettes; Joanne Johnson and Janice Young, yell leaders; Ann Agnew, Doris Rodgers, Barbara Rodgers, Bobby Brown, Wilma Moore, Janet Bonner and Cleta Willis, drum corps; Lannelle Colthorp and Bennie Elkins, managers. Sponsor is Mrs. Jesse N. Burditt Jr., wife of the athletic coach, and a former cheer leader of the Abilene High School Pep Squad. (Photo by Nell.)

This Is Commendable

The Hamlin Herald extends congratulations to members of the Hamlin Memorial Hospital board of directors for their action Monday night in setting aside a room at the institution for Negro patients. Such a move is fully in keeping with the principles of Christianity.

The Hamlin Memorial Hospital, erected as a monument to the young men who gave their lives for their country and their flag, was not fulfilling its purpose as long as treatment was refused to people of any creed, color or race. Negro boys died for the flag, too.

But the present board, conscious of the fact that a policy cannot be segregated, nor can human decency bow to discrimination, opened the hospital to treatment for the members of the colored race.

The Herald believes the board's action will meet with instant approval of the people in this community, and it feels certain the action will be in accord with the teachings of Jesus.

From this date forward the Hamlin Memorial Hospital will be more fully what it was intended to be—a haven of healing for the ill and afflicted, and a shining memorial to those who gave their lives that democracy might not perish from the face of the earth. A hospital, like God, can be no respecter of persons.

Boring From Within

Charges released this week, revealing that Communists have infiltrated into some of the church organizations in America, and that they are attempting by insidious methods to overthrow the one great barrier to their continued advance, should cause those of us who love the American way of life to engage in sober consideration of the danger that confronts us.

Communism is opposed to Christianity. In fact it is opposed to any concept of God or Godliness. The tenets of that political creed are atheistic and would destroy all doctrines not enunciated by Marx and Lenin and Stalin.

The revelation that came this week should serve to strengthen the determination of Americans that the forward march of this vicious system must be stopped. It should still the tongues of those who have so blandly voiced the opinion that there is no danger to America from communism. It should answer the inane argument that "it can't happen here." It should alert all of us to the fact that we must fight with every available means the steady encroachment upon our liberties achieved by communism.

A long time ago it was said that "Eternal vigilance is the price of liberty," and most of us, forgetting the truth of that statement, have relaxed our vigilance and permitted the upsurge of this cancerous growth within our land.

Perhaps the facts proclaimed in the recent presidential campaign were not "a red herring" after all.

The Decision Is Yours

Weeks of hard effort, and many hours spent in meetings by the board of directors of the Hamlin Memorial Hospital have resulted in the drive for funds which will be inaugurated next Monday.

The directors have organized the campaign, committee members have agreed to work, and numerous individuals and organizations have prepared to launch into a week's efforts to pay off indebtedness of the hospital.

But regardless of the organization and the ballyhoo and the underlying purpose behind all of this activity, the final result will be up to you!

No one can shoulder the load in this drive that properly belongs to you. No one else can take your part in providing the money needed for the immediate debts of the hospital. Of course, it is possible for the drive to be a success without your contribution—but you will be cheating yourself if you fail to participate to the very limit of your ability—whether large or small.

No doubt you have planned to give to the hospital fund. It may be that you have decided to donate a generous sum, but now you will have an opportunity to test the greatness of your own heart by doing a little more than you had intended to do.

Don't be niggardly next week when you are asked to give. Don't pass the campaign by with a shrug and an excuse. Give whatever you feel that you can give, and then give some more. You will find deep satisfaction in any sacrifice you might make. But the decision is yours.

Increasing interest in Hamlin's weekly trade day is indicated by the constantly growing crowds attracted to the event each week. Beginning on a small scale several months ago, the weekly event now brings people from many miles to witness the main attraction of the day.

DRILL FOR SCENIC HIGHWAY

Drilling for oil and other minerals is an old story but it remains for New Hampshire to drill for dollars. Not that dollars will be found but the state hopes to attract tourists with a new scenic highway and from the visitors will come the money.

Cutting through the rugged hillsides calls for leveling and grading operations through solid rock and drilling is necessary. R. G. Watkins & Sons, Inc., contractors on the job, called engineers of the Timken Roller Bearing Company and found the right answer to the rock drilling problem. Using 5 pneumatic hammers and 3 wagon-drills equipped with Timken Rock Bits enabled the job to go ahead smoothly.

When the new highway is finished and the motoring tourists come rolling along the drilling for dollars will pay off.

LETTERS TO THE EDITOR

(The Hamlin Herald is glad to publish letters from readers on any subject, and will print them without deletion provided they do not violate laws of libel and rules of good taste. The opinions expressed in letters published here are not necessarily those of the paper.)

To the Editor:

The strangest thing to me is why some smart men can't understand how and why President Truman was elected if they would only think he was the only candidate that was running that had a platform that was worthy anything to and for the people of course Mr. Dewey, Mr. Stassen and several others was always hollering me too but we all know what the 80th congress did about the things that was most important to all of us.

So my friends if you are keeping up with the trend of things you will find out that quite a number of this bunch that had no platform but tried so hard to soft soap the people and tried to tell us how incompetent President Truman was how he bungled up things but they can surely see now that it went in at one ear and out the other but if you are keeping up with this bunch you will see that they have already started a wrong song to tell President Truman how things will be run and who will run them. In their minds they have about got the ones picked for the places they want them for. So my friends you will find out when this bunch tried so hard to soft soap us with this me too to most ever thing the Democrats have given us the past 10 years. They will change the name of that word to we didn't aim to. The way I see things if I was this bunch I would surely wait until President Truman announced who he thought should be the man he wanted to help run this government. He won his race mostly by himself and I believe if the Congress and Senate and all of us will cooperate he will straighten everything out let us all help him. Resp.

Your friend,
Albert Moore.

Texas Writer Is Author of Early Day True Stories

The old days when wet mud packs were applied to spider bites and children stayed close to the house to avoid capture by the Indians are recounted by Helen Grote of Fredericksburg in the current issue of the "Junior Historian."

Writing in the magazine published by the Texas State Historical Association at the University of Texas, Miss Grote sets down experiences related by her 91-year-old grandmother, Mrs. Anna Matern Grote.

Mrs. Grote, was born in 1856 in Burnet County, her parents having settled near New Braunfels after coming to America from Germany in 1845—about a year before the settlers of Fredericksburg arrived.

She told her granddaughter that she and other brothers and sisters played with sticks and rocks and home-made toys since there were none to be bought. She remembered that her father was once invited to the home of some Indians for dinner and during the course of the meal saw what he believed to be human bones in the meat.

Miss Grote was one of 17 young contributors to the current issue of "Junior Historian," which included articles by students from Galveston, San Antonio, Fort Worth, San Angelo, Iraan, Dallas, McCombs, Wichita Falls, Texas City, Cuero and Texarkana.

Mrs. L. G. Server and Mrs. J. G. Smith visited friends in Rule and Haskell last Wednesday.

Mr. and Mrs. Vesta L. Townley of Wichita Falls were guests Sunday of Townley's parents, Mr. and Mrs. Everett Townley in Hamlin.

Mrs. Annie Graves of Los Angeles is a guest this week in the home of Mrs. B. S. Ferguson.

Roy White of Odessa spent last week in the home of Mr. and Mrs. P. Scott in Hamlin.

Miss Janet Galt pauses by the old Japanese Wishing Gate in Texas State College for Women at Denton. It is one of the few landmarks on the campus unchanged since both her mother, Mrs. W. J. Galt of Oklahoma City, and her grandmother, Mrs. M. M. Mahaffey of Mt. Vernon were TSCW students in the classes of 1930 and 1903, respectively. Miss Galt is a freshman library science major.

Mr. and Mrs. Dick Owens of Abilene came to Hamlin Sunday to be guests of Mrs. Owens' parents, Mr. and Mrs. Curtis Martin, and to take their daughter, Marilyn, home with them. Marilyn had been a guest here for several days.

Mr. and Mrs. Fred West have returned to their home in Odessa after visiting in Hamlin in the home of West's mother, Mrs. Fannie West. Mr. and Mrs. Aubrey Miller of Abilene spent Sunday in Hamlin as guests of Mrs. Etta Stephenson.

Area Brotherhood Head Speaks Here

Edward Ponder, Sweetwater attorney, and president of district 17 Baptist Brotherhood organization, was guest speaker at the meeting of the Hamlin Baptist Brotherhood in the First Baptist Church last Thursday night.

Ponder was welcomed by 35 Hamlin men. A covered-dish supper was served immediately preceding the address.

Ponder's talk concerned events in the life of Peter and his relations to Christ. The speaker pointed out how these matters pertain to our modern day lives. He said a building in Washington, D. C. bears the inscription: "The Past Is a Prologue." Ponder discussed this briefly in relation to our lives and activities.

Mrs. J. D. Norris of Eldorado, Arkansas, was a guest in the home of her sister, Mrs. W. W. Green last week-end.

Mrs. O. L. Taulman of Odessa spent the week-end in the home of her mother, Mrs. W. W. Green in Hamlin.

HIGHWAY SIGNS ADVISE SAFE SPEEDS ON CURVES, TO BE SEEN IN FUTURE

A new type of highway sign, an advisory speed sign designed to aid in traffic safety, will soon make its appearance on Texas main highways.

Part of the Texas Highway Department's program of speed zoning, the new sign will advise motorists of the maximum safe and comfortable speed on curves and turns which are not considered safe to travel at speeds above 50 mph. It will be a sign with a yellow background and black numerals and letters.

The speed indicated on the sign is not the maximum at which a turn may be taken, but is the maximum at which the average car can make the turn without an uncomfortable side-throw of its passengers and still stay on its side of the road.

The speed indicated is calculated by the use of a Ball-Bank indicator, an aircraft device which measures the degree of force in any turn. Highway Department test drivers

will try each turn at increasing speeds until the maximum is determined.

The Governor's Highway Safety Conference held this spring recommended that the Texas Department institute a program of speed zoning, an marking curves with safe speeds, and the new signs are a result of that recommendation.

Mr. and Mrs. Leslie Winkle of Rule were guests of Mr. and Mrs. Fate Beavers and other friends last Sunday.

Deadline Dates for Veterans Are Pointed Out by VA; Benefits Due

There are a number of important deadline dates on GI Bill benefits which World War II veterans should keep in mind, Veterans Administration officials point out.

GI education and training benefits have two deadlines, one to enter training and another to complete training. Education or training must be started within four years after discharge or by July 25, 1951, whichever is later.

As a general rule, education or training must be completed not later than July 25, 1956. The exceptions from the general rule are veterans who enlisted or reenlisted before October 6, 1946. These men figure deadlines on GI Bill benefits

from the date of their discharges and may start and complete their training later than other veterans.

Veterans may apply for guaranteed or insured GI loans for the use of buying or building homes, farms or business up until July 25, 1957. Veterans who were discharged on or before July 25, 1947, can apply for readjustment allowances until two years after their date of discharge. However, no readjustment allowances are payable after July 25, 1952.

There is no deadline on the time a veteran has to apply for medical care or hospitalization. He may do this anytime during his life. The same holds true for filing a claim for disability compensation or pension.

Cotton Trading In T-O Region Shows Weakness

Trading in spot cotton sagged the past week in Oklahoma and Texas markets, according to the Production and Marketing Administration of the United States Department of Agriculture.

Reported sales at Dallas, Houston and Galveston dropped to 75,245 bales compared to 89,045 bales the previous week. Sales at the other seven spot markets of the nation likewise declined.

Domestic mill inquiries were less numerous last week in the Southwest. However, export interests continued fairly good, but prices offered were unattractive to local merchants and shippers. Farmers are offering current ginnings at prices better than government loan values.

Picking was interrupted in most sections by light rains and cold, damp weather. Farmers in most areas reported the supply of pickers is adequate.

Cotton ginned in Oklahoma through October 31 ran much higher in grade and longer in staple length than during the same period last year, but the cotton ginned in Texas through October 31 was lower in grade and slightly longer in staple than the same time during the last year.

Joe and Jeanne Trimble of San Angelo spent the week-end with Miss Viola Avants in Hamlin.

Lift Up Your Voices

Americans have much for which to be thankful this year... plenty of food, shelter from the weather, comfortable homes and most of us have health.

It is fitting that we pause from our vocations and "lift up our voices to God, who has so bountifully blessed us."

And, in keeping with the teaching of the Master, let us share with those who are not so fortunate, that others, too, may have reason for rejoicing.

Dangers From Gas Asphyxiation is Cited by State Health Head; Urges Caution

With the advent of cold weather in this State, several deaths are usually reported, resulting from asphyxiation by gas fumes from improperly ventilated homes or sleeping quarters.

Dr. George W. Cox, State Health Officer, has issued a warning in this respect, emphasizing that it is never safe to sleep in a tightly closed room in a gas fire burning. Even if there are no gas leaks, the air soon becomes vitiated and unfit to breathe.

When occupying a room in which a fire is burning, be sure always to leave at least one window or door open to admit fresh air," Dr. Cox said. "If the weather is too cold to permit leaving an open window in a room occupied, then play safe by opening a door into an adjoining room, where a window can be opened."

Dr. Cox said he was prompted to issue this warning early in the season because of the fact that thousands of new residents in the state come from districts where they have been used to burning coal, oil or gas, and they do not know the dangers of gas fumes in improperly ventilated homes.

Occupying a room heated by an open gas flame, and at the same time keeping the room tightly closed may prove disastrous the very first time it is tried," Dr. Cox said. "Always be sure that your room has plenty of fresh air, but

The one thing that won't help you through the winter is a lot of talk. So we'll make it brief:

Change now to winter-grade Conoco Nth Motor Oil for faster starts, peak winter engine performance and the full-time protection of OIL-PLATING.

Faster starts: Winter-grade Nth is specially refined to lubricate your engine even when the temperature plunges. It's free-flowing.

Peak winter performance: When you drain out that thick, dirty summer oil, you say goodbye to balky engine response. Winter-grade Nth puts June under the hood!

Full-time protection: A special added ingredient fastens an extra protective film of lubricant to metal surfaces... OIL-PLATES every working part... cuts down "dry" friction starts and general engine wear.

Don't Neglect Them!

Nature designed the kidneys to do a
marvelous job. Their task is to keep the
body free of an excess of
toxins. The act of living—its
itself—is constantly producing waste
matter. The kidneys must remove from
the blood if good health is to endure.
When the kidneys fail to function
Nature intended, there is retention of
waste that may cause body-wide dis-
tress. One may suffer nagging backache,
persistent headache, attacks of dizziness,
getting up nights, swelling, puffiness
under the eyes—feel tired, nervous, all
worn out.
Frequent, scanty or burning passages
are sometimes further evidence of kid-
ney or bladder disturbance.
The recognized and proper treatment
is a diuretic medicine to help the kidneys
get rid of excess poisonous body waste.

sults thirty years of public approval and
